Clear glass bevels surrounded with subtle grey and textured film effects.

FB781

A clear glass design with fusion tile option in 4 possible combinations of colour.

A quirky Etched glass pattern with a feature Black fusion tile.

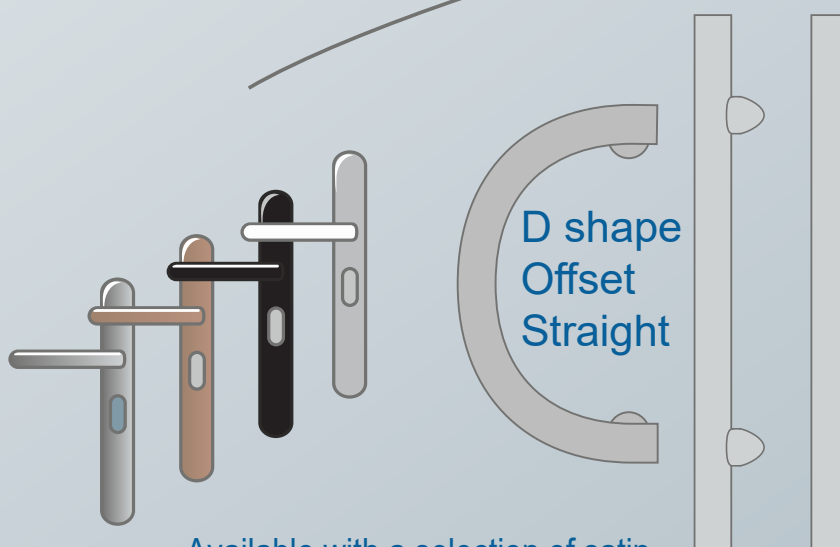

FB705

Decorative Glass

Most of our decorated glass is manufactured by hand. With hand produced products, minor imperfections may occur but should not be deemed as defective.

Furniture Options

Available with a selection of satin stainless steel pull handles, or a multipoint locking system with a choice of coloured handles.

Important notes:

Some of the glass designs fitted in the doors shown in this brochure are manufactured using our A.R.T. (Advanced Resin Technology) process. This process allows us to create for you the most intricate designs at a reduced cost, however, due to limitations of the process beyond our control, these designs will occasionally produce minor imperfections. Brass and lead are natural materials which oxidise. This cannot be avoided and should not be regarded as a fault.

Technical Information

Leaf Construction

The range is faced as standard with PVCu skins each side.

Tec-timber internal sub-frame.

EHD polystyrene core, PVCu sheet (fire retardant) achieved a rating of 1y under BS476:Part 7 1987 (WARRES No.65240) [Spread of Flame].

Special - Any Ral Colour

We advise that your composite door should only be cleaned with mild soapy water. We advise that you do not use solvent or abrasive based products.

Important notes:

We cannot guarantee the accuracy of the colour reproduction shown in this brochure. Due to our continuous policy of development we reserve the right to change specifications without notice. We manufacture within tolerances of +/- 3mm.

Where ideas come to life

Made to measure and manufactured using the latest computer assisted technology, our triple sealed lead free frame is designed with the environment in mind. A guarantee from a company with many years experience in the manufacturing industry ensures you the highest quality and service. Security, weatherproof, and finish, everything you would expect from a door.
